

Ancestry.com, available through the Georgia Public Library System, is now accessible from your home until the end of the year. You are required to sign into the Pines network with your library card, so make sure your card is up-to-date. Follow the instructions below to take advantage of Ancestry's partnership with the library.

1. Visit www.gapines.org. Log into your Pines account in the upper right corner ("My Account"). Enter your barcode or username and your password to validate your account.
2. After clicking "Log in" button once you've entered your credentials in the "PINES Account Login" popup, there will be a "GALILEO Virtual Library" link at the top of the page. Click it.
3. Once you've been directed to the GALILEO site and you are given the "View" icons, click "Full."
4. Scroll down to about halfway down the page. There will be a link for "ProQuest" Ancestry under "In the Spotlight." After clicking that link, you will arrive on the Ancestry.com landing page.
5. Continue with Ancestry.com as you would normally with your Library account.
